

Blacksburg Road Bikeability Ratings and Trails

1. Tom's Creek is the major access road for most students coming from the north side of town. It has bike lanes but has high traffic volume. Make sure to merge into the center lane at the intersection with Prices Fork.

2. Take caution leaving campus on Tom's creek - drivers frequently pull into the bike lane for right turns.

Safer Riding Suggestions:

- Avoid intersections without traffic lights during peak traffic hours.
- Do not ride against traffic around the drillfield
- Avoid cutting through parking lots at night, ALWAYS RIDE WITH LIGHTS AT NIGHT

Road Ratings

- Good
- Tolerable
- Poor

Bike Trails
